

# Holme Pierrepont National Water Sports Centre

**Value:**

circa £9,600,000

**Client:**

Sport England

**Location:**

Midlands/Wales

**Description:**

RLF have been involved in various new build, refurbishment and infrastructure projects for Sports England including Holme Pierrepont, which is one of the UK's specialist National Sports Centres.

The project included the redevelopment of the Sports Science Facilities incorporating the requirements of Box 100 at the centre, together with the upgrading of the training, changing and relaxation facilities for the use by all athletes. New build work includes a British Canoe Union Headquarters, together with an upgrade of the existing white water canoe course.

Infrastructure works include for the re-provision of car parking and landscaping disposed of by the redevelopment works and the inclusion of lighting and new starting gates to the Regatta Lake.

**RLF Role:**

Quantity Surveyor

Planning Supervisor

**Other project consultants:**

Architect: Widdup Amer Architects

Project Manager: EC Harris

Services Engineer: Building Services Partnership

Structural Engineer: John Nolan Associates
