

Lilleshall National Sports Centre

Value:

circa £4,500,000

Client:

Sport England

Location:

Midlands/Wales

Description:

RLF have been involved in various new build, refurbishment and infrastructure projects for Sport England including Lilleshall which is one of the UK's four specialist National Sport Centres.

New Build includes a new sports and sports science centre, incorporating the requirements of Box 100 with specialist facilities including altitude acclimatisation rooms, hydropool and olympic standard weightlifting equipment; and a new gymnastics hall which provides international standard training facilities.

Refurbishment includes residential accommodation and the gymnastics hall to provide new headquarters office accommodation and changing rooms for the National Gymnastics Association.

Infrastructure includes reconfiguration of the existing road layout, new footpaths and general landscaping work; the upgrading of existing electrical mains and replacement of existing sewage disposal plant; and the re-provision of car parking spaces disposed of by new building works.

RLF Role:

Quantity Surveyor
Planning Supervisor

Other Project Consultants:
